

# CSI: CRETACEOUS SCIENCE INVESTIGATION DINO DETECTIVE JOURNAL

Do we have dinosaurs on the Earth today? Then how do we know that they exist? What evidence have we seen?

What are fossils?

Explain what the Earth, including Texas, was like during the Cretaceous period:

Describe the three ways that fossils can form & draw an example of each:

1.

2.

3.

Share what you learned about the official state dinosaur of Texas:
