

# THE PAST & PRESENT OF THE LONESTAR STATE

Reflect on what you learned about how Texas looked during the Cretaceous period compared to today!

- ➊ Why might certain dinosaurs or plants have been able to live in Texas long ago but not now?
- ➋ Write one or two sentences to describe how Texas has changed from the Cretaceous period to today.
- ➌ Based on what you've learned, write one idea about how Texas might look in the future (100 years or more from now).
